

Isaac Vazquez III

Creative and inquisitive network operations supervisor with seven years of experience, now transitioning into software development. Strong background in data-driven decision making, as well as debugging, designing, and developing software applications. Proficient in JavaScript, Angular, React, Express.js, Node.js, RestAPI, and MongoDB. Fast learner, devoted team player, and clever problem solver.

TECHNICAL SKILLS

Frontend

React, TypeScript, Angular, JavaScript, HTML5, CSS3, Bootstrap, responsive design

Backend

Node.js, Express, REST APIs, JWT authentication, CRUD development

Data

MongoDB, Mongoose, MySQL, SQL

Tools & Testing

Git, GitHub, Postman, npm, VS Code, Mocha, Supertest, Sinon

EDUCATION

The Tech Academy

Full-Stack JavaScript
Web Development Bootcamp
2026

University of Massachusetts Lowell

B.S. Information Technology
Java concentration

SELECTED PROJECTS

Winlock Tourism Website

Angular · TypeScript · Express · MongoDB

- Built a full-stack site with reusable Angular components and database-driven content
- Created REST endpoints backed by MongoDB Atlas and Mongoose
- Resolved routing, deployment, asset-path, data-shape, and async rendering issues

Social Media App — MEAN

Angular · Node.js · Express · MongoDB · JWT

- Implemented post CRUD, pagination, authentication flow, services, interceptors, and Angular Material UI work

Connect Four

React · TypeScript

- Built typed components, game-state logic, dynamic rendering, and audio feedback

Book Database API

Node.js · Express · MongoDB

- Designed CRUD endpoints, filtering, HATEOAS-style links, and automated tests

PROFESSIONAL EXPERIENCE

NOC ATM Supervisor

Cook Solutions Group | Portland, OR | 2019–2026

- Led and mentored a 25-person technical operations team supporting remote ATM infrastructure with over 10,000 endpoints
- Supported product launches, product R&D, and software automation
- Improved cross-functional workflows, evaluated system infrastructure and integrations, and translated customer needs into action items and procedure changes

Assistant Field Manager

Rising River Farm | Rochester, WA | 2007–2018

- Guided teams of 10–15 employees to meet productivity expectations, on time product delivery and distribution, and managed market sales
- Collaborated on infrastructure projects, logistics, and operational priorities
- Successfully developed crop-specific production methods and care regiments to improve yield and quality
